

# Alphabet Memory

## Objective

Students will improve their letter recognition and memory skills by matching pairs of alphabet cards.

## Ages

3-6 years old

## Materials

- One set of laminated letter cards for each group (see below)
  - We recommend starting with a small number of cards first, 6-10 total or 3-5 pairs.
  - Students can practice matching uppercase to uppercase letters, lowercase to lowercase letters, or uppercase to lowercase letters.

## How to Play

1. Shuffle the letter cards and lay them face down in a grid.
2. Have the students take turns flipping over two cards.
3. After flipping over the cards, the student should name the letters aloud.
  - a. If the letters match, the child keeps the pair and takes another turn.
  - b. If the letters do not match, flip them back over, and the next child takes a turn.
4. Continue playing until all pairs of letters have been matched.
  - a. The player with the most pairs at the end of the game wins.
